INSTANTLY KILLED

Was Lang Anderson, Head Brakeman
On Manifest Train No. 98, Steps in
Front of West Bound Train
With Fatal Results.

Lang Anderson of Covington, head brakeman on Chesapeake and Ohio manifest train No. 98 east, was instantly killed this morning about 6 o'clock when struck by a west bound train at the coal docks.

The train on which Mr. Anderson was brakeman had pulled into the coal docks for the purpose of taking coal before proceeding eastward. A very heavy fog lay this morning, making it impossible to see more than 100 feet in any direction. He stepped from his own train to the west bound track and was going up the track toward

the engine of his own train when he was struck by engine 677 west. He was instantly killed.

Anderson was a young man, being only 25 years of age. His home was in Covington. He was very popular among trainmen and a very promising future was before him.

The man's head was burst open by the force of the impact. His left arm and left leg were badly crushed and there were a number of other cuts and bruises all over the body.

The body was removed to the morgue in the undertaking parlors of Higgins, Slattery and Dwire. An inquest was held by Coroner Slack this morning. The body will be shipped to relatives in Covington.

Tires that did not require setting
in thirty years—on a Studebaker

WHEELS are the life of a wagon. Hubs, spokes, felloes and tires of the best materials, put together by skilled workmen, go into every Studebaker.

What is the result? Mr. William H. Horton, of Nineveh, N. Y., writes that the tires on his thirty-six year old Studebaker farm wagon did not need resetting in thirty years—and the wagon was in use every day.

We can prove to you that this is not an exceptional Studebaker wagon. There are thousands of Studebaker wagons in use today that are forty years old and more. And that have cost their owners little or nothing for repairs.

Come in and look over our stock of Studebaker vehicles. Let us show you how well they are built.

MISSING MAN

Is Made Defendant in Two More Suits
Filed in the Mason Circuit Court
Yesterday—Tim Ryan Sued
For Notes.

In the Mason Circuit Court yesterday two suits were filed against Timothy Ryan of the county, the man who disappeared recently, by the First-Standard Bank and Trust Co. and Mr. George McCarthy.

Mr. McCarthy states that by a note of June 1, 1916, Ryan promised to pay on March 1, 1916, the sum of \$418.50, which has not been done.

The petition of the First-Standard Bank and Trust Co. recites that the defendant obtained notes on October 7, 1916, for \$110, payable 6 months after date, one on November 8, 1916, for \$40, payable 4 months after date, and one dated March 3, 1917, for \$510, payable 6 months after date.

In both petitions it is alleged that the plaintiff has departed from the state with intent to defraud his creditors and that he has left the county of his residence to avoid the services of a summons and that he so conceals himself that a summons cannot be served upon him. The plaintiffs ask for a general order of attachment against the property of the defendant to secure payment of the said notes. Messrs. Worthington, Cochran and Browning represent the plaintiffs in both suits filed.

BARBER DISAPPEARS

"Jim Bob" Thoroughman Leaves
Home on Sunday and Has Not
Been Heard of Since.

Henry T. "Jim Bob" Thoroughman, of the barber shop of Duley and Thoroughman has mysteriously disappeared and his family are at a loss to know of his whereabouts.

On Saturday afternoon he took his barbering tools from the shop on Market street and later partially packed his clothes. On Sunday afternoon he was seen going toward the C. & O. depot. He has not been seen since. Young Thoroughman was a splendid young man, entirely free from bad habits and before his disappearance did not seem depressed in any way. He is married.

Any information concerning his whereabouts will be greatly appreciated by his family.

WAR LOANS

Great Britain's estimated wealth is \$85,000,000,000; she has made three great loans since the commencement of the war, aggregating \$10,000,000,000. Her last loan was for \$4,870,000,000 which was the greatest single loan ever floated in the history of the world. It was taken up in 30 days, 5,289,000 individuals subscribing to the loan. One person in every 11 inhabitants of the United Kingdom subscribed to this loan, and the average subscription was \$950, though a great many subscribers took only £1, or about \$5. The great number of subscribers to this loan is pointed out as evidence of the patriotism of the British people.

Germany's wealth is estimated at \$80,000,000,000. Germany has put out the loans since the commencement of the war, aggregating \$11,750,000,000. In Germany's latest loan 1 person in 13 of the population is reported to have subscribed, and the average amount taken by each subscriber was \$700.

Taking into consideration these figures, the \$5,000,000,000 loan of the United States with an estimated wealth of \$220,000,000,000 and a population of over 100,000,000 seems almost small. With a wealth nearly three times as great as that of Great Britain it is trying to borrow less than one-half of what Great Britain has borrowed. With a population one and one-half times as large as that of Germany our loan is much less than half of the amount that Germany has borrowed.

America's Liberty Loan is less than one-sixth of the bank deposits in our country. An ordinary borrower does not think he is ruining himself when he borrows 40 per cent of the value of his property. The United States is borrow less than 3 per cent of its wealth.

SING "AMERICA"

The words and sentiment of "The Star Spangled Banner" are admirable. They are set to a melody as inspiring as the melody of "La Marseillaise." Nevertheless we note with some satisfaction a tendency to the use of the words and air of "America" where singing is to be done by large bodies of people. "The Star Spangled Banner" is distinctly difficult of successful negotiation by an untutored singer. Some professional vocalists confess to trepidation when called upon to interpret it. We have in mind an eminent singer who recently confessed that she actually dreaded attempting it, and another equally eminent who undertook it in the presence of a large audience and met with disaster. There are not a great many who can interpret the song comfortably and with the best effect. When it is sung the result is sometimes more pitiable than inspiring.

But anyone who can sing at all can sing "America" with comfort both to himself and his neighbors. The sentiment of the hymn is less warlike than the sentiment of "The Star Spangled Banner," but it is noble and dignified. The air is full and flowing, within easy range and has distinction. It can be undertaken without apprehension and sung in fullness of soul. It is much easier to express heartfelt patriotism while singing "America" than it is while singing "The Star Spangled Banner," because there is less distraction from the sentiment which is being voiced. "America" is the song for all the people; "The Star Spangled Banner" is a special song for special occasions, and its glory will grow if it is left chiefly to those who can successfully interpret it and to instrumental bodies that can bring out its really superior and distinguished beauties.

THE FRENCH BOND BUYERS

The French people are the greatest investors in Government bonds in the world. At the close of the Franco-Prussian War in 1870 Germany demanded and collected from France \$1,000,000,000 indemnity. The French people, who were as loyal then in responding to their country's need as their soldiers are today, hastened to loan this tremendous sum to their country.

Their patriotism turned a great misfortune into a great benefit. Their thrift in thus saving their money and investing it in Government bonds not only brought great prosperity to France but the bonds rose in value all over the world and made the French national credit good wherever civilization existed. Ten years after the bonds were issued they commanded a premium of 25 per cent.

What the American Nation is called upon to do in lending the American Government \$5,000,000,000 and taking its bonds therefor is little compared with the loan of \$1,000,000,000 to France after the Franco-Prussian War by the French people. Called upon to do much less than their present allies, the French, the American people will demonstrate that they are second to no people in the world in patriotic support of their Government.

28 RESCUED FROM MONTANA MINE—OTHERS ENTOMBED MAY STILL BE FOUND ALIVE

Butte, Mont., June 10—Twenty-eight men entombed in the Speculator mine since the fire Friday night were brought to the surface alive at 1:40 o'clock this afternoon. Of the twenty-eight rescued men, one was so far gone that resuscitation was impossible. The finding of the men alive stimulated efforts of the rescue team and there is strong hopes that others may be found alive.

GOOD BACKS FOR BAD

Maysville Residents Are Learning How to Exchange the Old Back For a Stronger One.

Does your back ache, feel weak and painful? Do you suffer headaches, languor and depression? The kidneys may be calling for help. Weak kidneys cannot do their work. Give them the help they need. To cure a kidney backache you must cure the kidneys. Use a tested and proven kidney remedy. Doan's Kidney Pills have stood the test.

Convincing proof of merit in Maysville endorsement: Mrs. M. Holliday, 221 W. Second St., Maysville, says: "At times, my back has ached across my kidneys. My kidneys have been irregular in action and I have had dizzy spells and headaches. I have always used Doan's Kidney Pills, getting them at Wood & Son's Drug Store, and they have never failed to relieve these complaints." Mrs. Holliday is only one of many Maysville people who have gratefully endorsed Doan's Kidney Pills. If your back aches—if your kidneys bother you, don't simply ask for a kidney remedy—ask distinctly for DOAN'S KIDNEY PILLS, the same that Mrs. Holliday had—the remedy backed by home testimony. 50c all stores. AUSTRIAN EMPEROR RENEWS PLEDGE FOR EARLY PEACE

Amsterdam, June 10—A Budapest dispatch says Emperor Charles has taken occasion again to assure the Hungarian people he is in favor of an early peace as well as wide reforms of the suffrage. On Friday an enormous crowd, estimated at 100,000 people, marched to the burgomaster's office at Budapest where Deputy Vasconyi gave the burgomaster an address to be delivered to Premier Esterhazy urging the adoption of the secret vote and an enlarged franchise.

The burgomasters presented the address yesterday. The Emperor replied that, true to his promise, he would see that the suffrage reforms were carried out, and would use the first opportunity to conclude an honorable peace.

FOOD SAVING IS UP TO WOMEN, SAYS CLUB HEAD

Washington, June 10—The question of saving the food of the country is entirely up to the women according to Mrs. John Dickinson Sherman, chairman of the conservation department of the General Federation has inaugurated a nation-wide food canning campaign among the federation's members.

In sending out instructions to the conservation chairman of each state in the Union today, Mrs. Sherman, in her call to organize, said:

"It is unexcusable negligence at this time for women not to inform themselves concerning the various phases of food conservation as it affects the individual, the community, the nation and our Allies.

"One of the greatest present needs is scientific direction in food nutrition and food economy. Thousands of women are eager to be thrifty, to use their resources wisely; but they do not know how. Sane, practical home economics instruction is greatly needed."

KEPT HER AWAKE

The Terrible Pains in Back and Sides. Cardui Gave Relief.

Marksville, La.—Mrs. Alice Johnson, of this place, writes: "For one year I suffered with an awful misery in my back and sides. My left side was hurting me all the time. The misery was something awful.

I could not do anything, not even sleep at night. It kept me awake most of the night... I took different medicines, but nothing did me any good or relieved me until I took Cardui...

I was not able to do any of my work for one year and I got worse all the time, was confined to my bed off and on. I got so bad with my back that when I stooped down I was not able to straighten up again... I decided I would try Cardui... By time I had taken the entire bottle I was feeling pretty good and could straighten up and my pains were nearly all gone.

I shall always praise Cardui. I continued taking it until I was strong and well. If you suffer from pains due to female complaints, Cardui may be just what you need. Thousands of women who once suffered in this way now praise Cardui for their present good health. Give it a trial. NC-133

FRUIT JUICES FOR JELLY MAKING KEPT WITHOUT SUGAR

Washington, D. C., June 12—Fruit juices for use later in jelly making can be sterilized and bottled without sugar and made into jellies at the housewife's convenience. This enables her to do with fewer jelly glasses and to distribute her purchases of sugar for jelly making through the year. Moreover, with the bottled juice she can make a greater variety of jellies, as juices which will not jell can be put up when the fruit is ripe and combined later with fruits that will jell, or fruits ripening at different seasons can be combined. For example, the juice of strawberries, cherries, or pineapple can be kept without sugar and later when apples are plentiful can be made into combination jelly.

From the unsugared sterilized juices of currants, apples, crabapples, and grapes, kept from 9 to 18 months, the Bureau of Chemistry, United States Department of Agriculture, recently made jellies of excellent texture, flavor, and color.

To put up unsugared fruit juices for jelly making, proceed exactly as if jelly were to be made at the time. Cook the fruits until they are soft and strain out the juice through a flannel bag. Heat and pour while hot into bottles previously scalded. Fill the bottles full, leaving no air space between juice and cork or seal. Place the filled sealed bottles on their sides in water near the boiling point, and keep them in the bath for about 30 minutes. Make sure that the corked or sealed end is under the hot water. As soon as the bottles are cool, cover the cork with a paraffin seal. Thorough sterilization and sealing are absolutely essential to success.

To make jelly from the sterilized juice, test its jelling quality, add the proper amount of sugar, and proceed as in making jelly from freshly expressed juice.

HOW SHALL WE PAY FOR THE WAR?

A Constructive Criticism on the House Revenue Bill.

LOANS BETTER THAN TAXES

Five Reasons Why Excessive Taxes at the Outset of War Are Disadvantageous—Great Britain Example Worthy of Emulation—How the Taxes Should Be Apportioned.

By EDWIN R. A. SELIGMAN, McVickar Professor of Political Economy, Columbia University.

On May 23, 1917, the House of Representatives passed an act "to provide revenue to defray war expenses and for other purposes." In the original bill as presented by the Committee of Ways and Means, the additional revenue to be derived was estimated at \$1,810,420,000. The amendment to the income tax, which was tacked on to the bill during the discussion in the House, was expected to yield another \$400,000,000 or \$500,000,000.

In discussing the House bill, two problems arise:

I. How much should be raised by taxation?

II. In what manner should this sum be raised?

I. How Much Should Be Raised by Taxation?

How was the figure of \$1,800,000,000 arrived at? The answer is simple. When the Secretary of the Treasury came to estimate the additional war expenses for the year 1917-18, he calculated that they would amount to some \$6,000,000,000, of which \$3,000,000,000 was to be allotted to the allies, and \$3,000,000,000 was to be utilized for the domestic purposes. Thinking that it would be a fair proposition to divide this latter sum between loans and taxes, he concluded that the amount to be raised by taxes was \$1,800,000,000.

There are two extreme theories, each of which may be dismissed with scant courtesy. The one is that all war expenditures should be defrayed by loans, and the other is that all war expenditures should be defrayed by taxes. Each theory is untenable.

It is indeed true that the burdens of the war should be borne by the present rather than the future generation; but this does not mean that they should be borne by this year's taxation.

Meeting all war expenses by taxation makes the taxpayers in one or two years bear the burden of benefits that ought to be distributed at least over a decade within the same generation.

In the second place, when expenditures approach the gigantic sums of present-day warfare, the tax-only policy would require more than the total surplus of social income. Were this absolutely necessary, the ensuing havoc in the economic life of the community would have to be endured. But where the disasters are so great and at the same time so unnecessary, the tax-only policy may be declared impracticable.

Secretary McAdoo had the right instinct and highly commendable courage in deciding that a substantial portion, at least, of the revenues should be derived from taxation. But when he hit upon the plan of 50-50 per cent, that is, of raising one-half of all domestic war expenditures by taxes, the question arises whether he did not go too far.

The relative proportion of loans to taxes is after all a purely business proposition. Not to rely to a large extent on loans at the outset of a war is a mistake.

Disadvantages of Excessive Taxes.

The disadvantages of excessive taxes at the outset of the war are as follows:

1. Excessive taxes on consumption will cause popular resentment.

2. Excessive taxes on industry will disarrange business, damp enthusiasm and restrict the spirit of enterprise at the very time when the opposite is needed.

3. Excessive taxes on incomes will deplete the surplus available for investments and interfere with the placing of the enormous loans which will be necessary in any event.

4. Excessive taxes on wealth will cause a serious diminution of the incomes which are at present largely drawn upon for the support of educational and philanthropic enterprises. Moreover, these sources of support would be dried up precisely at the time when the need would be greatest.

5. Excessive taxation at the outset of the war will reduce the elasticity available for the increasing demands that are soon to come.

Great Britain's Policy.

Take Great Britain as an example. During the first year of the war she increased taxes only slightly, in order to keep industries going at top notch.

During the second year she raised by new taxes only 9 per cent of her war expenditures. During the third year she levied by additional taxes (over and above the pre-war level) only slightly more than 17 per cent of her war expenses.

If we should attempt to do as much in the first year of the war as Great Britain did in the third year it would suffice to raise by taxation \$1,250,000,000. If, in order to be absolutely on the safe side, it seemed advisable to increase the sum to \$1,500,000,000, this should, in our opinion, be the maximum.

In considering the apportionment of the extraordinary burden of taxes in war times certain scientific principles are definitely established:

How Taxes Should Be Apportioned.

(1) The burden of taxes must be spread as far as possible over the whole community so as to cause each individual to share in the sacrifices according to his ability to pay and according to his share in the Government.

(2) Taxes on consumption, which are necessarily borne by the community at large, should be imposed as far as possible on articles of quasi-luxury rather than on those of necessity.

(3) Excises should be imposed as far as possible upon commodities in the hands of the final consumer rather than upon the articles which serve primarily as raw material for further production.

(4) Taxes upon business should be imposed as far as possible upon net earnings rather than upon gross receipts or capital invested.

(5) Taxes upon income which will necessarily be severe should be both differentiated and graduated. That is, there should be a distinction between earned and unearned incomes and there should be a higher rate upon the larger incomes. It is essential, however, not to make the income rate so excessive as to lead to evasion, administrative difficulties, or to the more fundamental objections which have been urged above.

(6) The excess profits which are due to the war constitute the most obvious and reasonable source of revenue during war times. But the principle upon which these war-profit taxes are laid must be equitable in theory and easily calculable in practice.

The Proposed Income Tax.

The additional income tax as passed by the House runs up to a rate of 60 per cent. This is a sum unheard of in the history of civilized society. It must be remembered that it was only after the first year of the war that Great Britain increased her income tax to the maximum of 34 per cent, and that even now in the fourth year of the war the income tax does not exceed 42½ per cent.

It could easily be shown that a tax with rates on moderate incomes substantially less than in Great Britain, and on the larger incomes about as high, would yield only slightly less than the \$322,000,000 originally estimated in the House bill.

It is to be hoped that the Senate will reduce the total rate on the highest incomes to 34 per cent, or at most to 40 per cent, and that at the same time it will reduce the rate on the smaller incomes derived from personal or professional earnings.

If the war continues we shall have to depend more and more upon the income tax. By imposing excessive rates now we are not only endangering the future, but are inviting all manner of difficulties which even Great Britain has been able to escape.

Conclusion.

The House bill contains other fundamental defects which may be summed up as follows:

(1) It pursues an erroneous principle in imposing retroactive taxes.

(2) It selects an unjust and unworkable criterion for the excess-profits tax.

(3) It proceeds to an unheard-of height in the income tax.

(4) It imposes unwarranted burdens upon the consumption of the community.

(5) It is calculated to throw business into confusion by levying taxes on gross receipts instead of upon commodities.

(6) It fails to make a proper use of stamp taxes.

(7) It follows an unscientific system in its flat rate on imports.

(8) It includes a multiplicity of petty and unworkable taxes, the vexatiousness of which is out of all proportion to the revenue they produce.

The fundamental lines on which the House bill should be modified are summed up herewith:

(1) The amount of new taxation should be limited to \$1,250,000,000—or at the outset to \$1,500,000,000. To do more than this would be as unwise as it is unnecessary. To do even this would be to do more than has ever been done by any civilized Government in time of stress.

(2) The excess-profits tax based upon a sound system ought to yield about \$500,000,000.

(3) The income-tax schedule ought to be revised with a lowering of the rates on earned incomes below \$10,000, and with an analogous lowering of the rates on the higher incomes, so as not to exceed 34 per cent. A careful calculation shows that an income tax of this kind would yield some \$450,000,000 additional.

(4) The tax on whiskey and tobacco ought to remain approximately as it is, with a yield of about \$230,000,000.

These three taxes, together with the stamp tax at even the low rate of the House bill, and with an improved automobile tax, will yield over \$1,250,000,000, which is the amount of money thought desirable.

The above program would be in harmony with an approved scientific system. It will do away with almost all of the complaints that are being urged against the present. It will refrain from taxing the consumption of the poor.

It will throw a far heavier burden upon the rich, but will not go to the extremes of confiscation. It will obviate interference with business and will keep unimpaired the social productivity of the community.

It will establish a just balance between loans and taxes and will not succumb to the danger of approaching either the tax-only policy or the loan-only policy. Above all, it will keep an undisturbed elastic margin, which must be more and more heavily drawn upon as the war proceeds.

Washington, June 10—Virginia and the national parks added their war registration figures to the totals at the provost marshal general's office today, bringing the registration reported from twenty-seven states, the district and the parks up to 4,808,594, compared with a census estimate of eligibles of 5,566,429.

Of the total registered 3,621,965 are whites; 692,734 colored; 279,636 aliens, and 45,179 alien enemies. Possible exemptions indicated are 2,624,583.

WILL FILED

Of Patrick Maher of Washington, Who Died Recently—Leaves Property to Family.

In the Mason County Court yesterday a paper bearing the date of March 26, 1917, and purporting to be the last will and testament of Patrick Maher, deceased, was produced in court and filed and ordered to be recorded. The due execution of the said paper was fully proven by the testimony of Dr. Irvine Berry, J. M. Collins, attesting witnesses and admitted to probate.

Mr. Maher disposed of his property as follows:

To his wife, Mrs. Margaret Maher, the use and occupancy of the real estate occupied by the deceased, both a residence and store for her use during her natural life, and that his estate pay her the sum of \$200 annually.

To the pastor of the St. Patrick's Church at Maysville, the sum of \$100 to be used as a memorial for masses for the souls of himself and the deceased members of his family.

To the fund for building and beautifying St. Patrick's Church, \$100.

All of the rest of the estate of every kind to his six sons, William, Edward, Thomas, John, Patrick and Daniel, the share of William to be placed in the hands of Edward to be held and controlled by him, paying the annual income to William. Upon the death of the latter, the amount shall be divided among his children if any; if not the sum to go to Edward.

Edward Maher and John Maher qualified as administrators of the personal estate of Patrick Maher, deceased, and qualified as such with Frank and Thomas Maher as sureties.

ART LEAGUE MAKES DONATION

The Metcalf Art League of the Eighth Grade of the High School building has donated \$15 to the Mason County Red Cross Chapter. This little society was organized several years ago by Miss Ella Metcalf, and named in her honor. The league raised money by candy sales and by monthly dues of its members. At the end of the year there was generally a neat little sum which was spent in beautifying the school room. This year the students decided to donate it to the Red Cross and needless to say their donation was greatly appreciated.

MR. HUNSICKER'S FUNERAL

The funeral of Councilman Godfrey Hunsicker will be held from the late home on East Second street this afternoon at 2 o'clock. The services will be conducted by the Knights of Pythias and the Rev. MAYBE JUPITER PLUVE WENT TO SLEEP

Remarkable occurrence yesterday. It failed to rain. After several weeks of April weather, rain one minute, sun shine the next, the skies cleared up yesterday, and for one solid 24 hours the rains failed to descend. With several days of warm sunshine, all of the gardens will sprout lively. Likewise the weeds. Get busy on both.

A NEAR WRECK

A dragging brakebeam on an east bound freight train nearly caused a very bad accident at the Commerce street crossing yesterday about 10 o'clock. The beam struck the wooden frame between the rails dragging it under the wheels of the train. It was cut in two by the heavy weight of the cars. That it did not cause a very bad wreck is a miracle.

For a business to be successful for forty years means a great deal. Among other things, it means remarkable excellence in the products it sells. WAR

This is What We Are in For

If your house had been ransacked and burned, and your relatives and friends had been outraged, as have the Belgians and French, you would be bursting with rage and ready to fight, and fight to a finish.

Bombs with long but perfect connections have been set under the foundations of this government.

The fuse is burning towards our shores.

Shall we wait till the terrible explosion takes place, or shall we act now?

The war is with us. We may not see its flames today, but our homes, our liberty, our freedom and our all, are at stake. And it is vitally necessary that the Liberty Loan be fully subscribed immediately in order to equip our boys RIGHT. The Government has offered for sale two billions of bonds in denominations of \$50, \$100, \$500 and upwards. Your plain duty is to buy as many of these bonds as you can. They can be bought on the partial payment plan. The first payment need only be 2%, \$2 on a \$100 bond. Anyone with any pocket money or an allowance of any kind can find no excuse for not buying at least one \$50 bond.

AS GOOD AS GOLD

And remember that this bond is the soundest investment in the world. It is a first mortgage on the United States—a piece of the wealth of the wealthiest of nations. It pays you interest at 3½% semi-annually. You are saving for yourself, the very money you save lives with.

Do something today to save the lives that you know you can aid in saving. Subscribe yourself to one or more bonds; get your friends to subscribe; give a Liberty Loan Bridge, or a Liberty Loan Tea, or some form of entertainment which will raise funds to buy bonds with.

IT IS YOUR DUTY. IT SHOULD BE YOUR PRIDE AND PRIVILEGE, TO DO THIS WORK.

FULTZ'S SUNNY SOUTH

This beautiful floating theater will exhibit in this city on Friday night, June 15. Their play on this trip will be "The Mills of the Gods," a comedy drama based on the leading topic of the day, the struggle between capital and labor, a thrilling story showing the throttling of the small industry by the greed of capitalism. This said to be a very entertaining and educational play. There will be vaudeville supplied between acts. A big parade will be given at 11:30 o'clock a. m.

Mrs. H. B. Merryweather of Kansas City, Mo., arrived yesterday to spend some time with her daughter, Mrs. LeWright Browning of Edgemont.

YOUR PATRIOTIC DUTY

BUY A LIBERTY BOND

Danger for the complete success of the Liberty Loan lurks in over-confidence. The announcements in the press of large applications by institutions and men of great wealth are apt to engender the comfortable feeling that all will be well without the efforts of the small subscribers. This line of thought together with the idea that through over-subscription—minor allotments may not be made, must be dispelled from the mind of every patriotic citizen.

It is not sufficient that this issue should be merely a bare success. It must be a striking demonstration of the overwhelming strength of purpose animating all sincere friends of Liberty to bring the war to a speedy and successful termination.

The eyes of the enemy are watching this preliminary skirmish and our victory must be made effective by a truly popular subscription exceeding MANY TIMES the amount offered. It behooves every INDIVIDUAL to let his action be entirely guarded by the conviction that upon HIS UT-MOST PERSONAL EFFORT depends the only result worthy of the great cause which all free men desire and INTEND to make triumphant. Hesitancy as to the importance of the amount available should not be allowed to prevail. The Bonds are in denominations as low as \$50, and all purchasers of one of these will contribute their quota towards swelling the volume of subscriptions.

No thought of the detail work attendant upon subscribing to the loan need deter. We will—as we have already stated—attend to that free of any charge. All that is necessary is that we receive notification of the amount desired.
